

Subject:

Webmasters Terminated

Just to let the community know.... Bill and I did not retire or resign our position as webmaster for the ACC website. Our new general manager, George Torres, asked me to come to a meeting in his office on Friday, August 23, 2024. We had met earlier in the week to discuss getting the new staff set up on the website, and I had sent a follow-up email listing the training that would be needed. Instead of a training session, George was joined by Rick Wright and Neil King. They gave me a certificate and a clock, thanked me for our service, and said the office will be handling all website functions from now on. By the time I got home, all our administrative privileges to the website were revoked.

To sum it up, we were terminated.

Sincerely,

Bill & Donna Hucker
